

TRANSCENDENTAL KARMIC ASTROLOGY SEMINARS IN THE HEART OF LONDON BY ZSUZSANNA GRIGA

Introduction to Transcendental Karmic Astrology

Three full day seminars: January 14, February 4, and March 3.

What is TKA? Modern Karmic Astrology is the 20th century form of an ancient tradition, which claims that the multi-dimensional soul is eternal, it incarnates in numerous times, and its aims, talents, and karmic wounds can be delineated from the natal chart. **Transcendental Karmic Astrology** is the 21st century version of it, which has evolved as a result of the new astronomical discoveries of the two celestial belts: the Asteroid Belt and the Kuiper Belt. TKA accepts the basic premises of Karmic Astrology while utilizing the tight orb asteroids, Centaurs, and fixed stars, which are the karmic triggers in a natal chart. I have been doing karmic readings based on TKA in London, Budapest, and Miami since 2003. Please see my website for more information www.the-dreamweaver.com, or email me at zsu@best4web.com.
